

APRIL 2026

EVERETT

FAMILY CALENDAR

TRY THIS AT HOME!

Who is hiding in your neighborhood? Grab the family and a flashlight for a backyard safari! Head outside and carefully lift a rock, a log, or a flowerpot to see who's underneath. Whether it's a salamander, a beetle, or a wiggly worm, take a moment to wonder: Where are they going? Just remember to tuck them back into their "house" when you're done!

THIS MONTH'S KIDS ZONE THEME THE CURIOSITY CLUB!

Step into our "nature lab" this month to track the path of the wind and uncover the secrets of the sky. From making tiny journals to exploring how things grow, we're bringing the magic of the outdoors inside. Come play, wonder, and experiment with us!
