Volunteer Medical Professional

As a volunteer, you will support our campers and staff by assisting in our Health Room, overseeing camper medications, and helping with minor first aid needs. Onsite volunteers will also get to join in on the camp magic by participating in activities, enjoying the outdoors, and creating memorable experiences alongside our campers. Opportunities are available to volunteer onsite or remote capacity for one or multiple weeks.

What we provide:

- Access to all medical supplies and resources needed to manage daily camper health needs and safely administer medications
- Camp healthcare handbook & standing orders

Perks:

- Onsite housing and meals for your volunteer week, if desired
- As a thank-you for your time and skills, your children may attend camp at no cost during your volunteer week

Qualifications and Time Commitment

- Current RN, NP, DO, or MD license valid in Washington State with no restrictions
- Maintain your own malpractice and liability insurance
- Volunteer commitment is one week (usually Sunday-Friday). A volunteer is needed on each of the following sessions either remotely or onsite:
    - July 5-9
    - July 11-16
    - July 18-23
    - July 26-30
    - August 1-6
    - August 8-13
- Option 1 – remote hours:
    - One daily video call with the health aides at a time that works for both parties
    - Phone consults with the health aides as needed for guidance
- Option 2 – onsite:
    - Reside onsite during the volunteer week, support Health Aides during scheduled medication distribution times, have designated personal time during the day, and remain on call to assist with illnesses or injuries as needed

Key Responsibilities

- Daily check-ins with camp Health Aides
- Oversee daily medication distribution, both prescribed and OTC
- Support minor illness & injury care
- Provide medical guidance to Health Aides on medication distribution and care for minor illnesses and injuries
- Keep accurate health records
- Help camp leadership determine if a camper needs more advanced medical care
